AIRPORT UNIVERSITY

Spring Quarter April - June 2025

AVIATION WEATHER (AVIA 123)

We talk about the weather every day. In this class you will learn how weather applies to aviation and flying airplanes.

Topics include:

- The causes of earth's weather and why it changes
- The dangers of hazardous weather and how it affects airplane operations
- Important weather terminology for aviation, such as how to make reports to pilots about in-flight weather
- Observe aviation weather and determine how it might affect a pilot and airplane operations

Mondays & Wednesdays
April 2 - June 18, 2025
2:00 - 4:30 pm

LOCATION: SEA Airport

Taught by: Green River College

Earn **5 college credits**

This FREE class is a **core requirement** for Green River College's "Basic Aviation Knowledge Certificate" and degrees in commercial pilot, airline dispatch, aviation management and air traffic control.
